

LabVIEW Boot Camp

A free on-campus training course for educators, researchers, and graduate students

Register Today

Monday, October 17 – Wednesday, October 19

CLAD Prep & Exam: Thursday, October 20

8:00 a.m. – 4:00 p.m.

University of Windsor - EPICenter

2nd Floor

2455 Wyandotte St. West

Windsor, ON N9B 0C1

Register for LabVIEW Boot Camp at the University of Windsor. NI LabVIEW software can help you solve problems and innovate faster and more effectively.

Cost: Free (a \$3,200 value)

If you are new to LabVIEW or looking to improve your skills, this free hands-on course introduces you to graphical programming with LabVIEW system design software. Learn how to develop data acquisition, instrument control, data logging, and measurement analysis applications. Benefit from an opportunity to take the Certified LabVIEW Associate Developer (CLAD) exam, a globally recognized entry-level certification exam, for free.

Please bring a personal laptop with LabVIEW software installed. The week before the event, you will receive an email on how to install the LabVIEW software.

You will:

- Learn the essentials you need to successfully build an application requiring measurement or control
- Explore the LabVIEW environment, dataflow programming, and common LabVIEW techniques to jump-start application development or improve your existing applications
- Create applications using the state machine design pattern to acquire, process, display, and store real-world data
- Gain an overview of key concepts and preparation materials for the CLAD exam

Requirements:

- Must be a researcher, educator, or current graduate student at the University of Windsor.
- Ability to install LabVIEW on a PC laptop with Internet Explorer 7 or later. Mac computers or other browsers are not recommended.
- All registrants must download and install all required materials prior to the event. Registrants will receive an email one week prior to the LabVIEW Boot Camp with instructions. These materials are required for all attendees.
